DATE OF INFO.		SUPPLEMENT TO 25X1 REPORT NO.			

This is UNEVALUATED Information

25X1

- 1. It has been reported that the East German vehicle construction industry is to be reorganized at the beginning of 1993. VEB IFA Automobilfabrik EMW (Eisenacher Motoren-Werke) (formerly Bayerische Motoren-Werke-EMW), Eisenach, Thuringia, is to be enlarged to three times its 1992 size. To accomplish this, various firms already in existence, among them the former Herdfabrik Demmer, are to be incorporated into EMW.
- 2. It is planned to produce chiefly automobiles and trucks for the Past German national army and for export at DNO. Production of motorcycles is to be started in Schkopau at the Former DNO-Ferko. 2 It is not known what Horch and Audi in Spickau will produce.
- 3. In the first partial plan provisions are made only for the production of 1.75 metorcycles (750 ccm, capacity) and, in the automobile field, of wehicles which are capable of cross-country travel and resemble the American joep. A series of 600 of the jeep-type vehicles are to be manufactured; after these have been tested, mass production will begin.
